Awesome App, I am using this App to download my favourite songs and share my results with my family and friends. Thank you so much for the latest version! Very fast and easy to use. I was unable to download a few songs that worked before due to the fact that the server changed the way it is served but your app is now downloading the file with no problems. Have a happy new year!!! Kind regards Dawid Biska  
This awesome app has changed the way I download music. I use it at the gym. The original version was very slow and annoying to use. The newer version is very fast, and works much like the iTunes. It has many built-in widgets that can be used for

---

any of your needs. Very helpful for the most basic of tasks. It's been a long time since I last reviewed any music/video downloader, but musicase is just superb. The download times are superb and it's so easy to use! I'd have to say the only thing that might be considered a flaw is that it doesn't have the ability to download multiple files at the same

---

song on the Internet and download it hassle free. It's one of those apps that's simple, practical and just plain works. User-friendly interface, well suited for anyone Musicase is by all means a basic audio downloader. Its interface is rather old fashioned with an overall design that won't stir up much interest if you're into good looking apps. On the other hand the fact that it's a simple tool only emphasises its reliability and ease of use. With Musicase you get a main window in which you can type in the search keywords, as well as view a list with the results and download progress information. Along with those, you also get a built-in audio player that you can use to preview any song before you download it. It's based on Windows Media Player so the playback controls should be more than familiar to you. Effortlessly download any song Musicase allows you to enter one or more keywords for the search to narrow it down as much as possible and obtain an accurate result. All the found tracks are displayed in a neat list that shows you the complete track title and duration. Next to each title you get a 'Save' button and once you

#### **What's New In Musicase?**

Get any song from the internet without downloading or installing any software just by typing in the song title
