Primary ovarian hyperthecosis is a rare condition in which there is the presence of ovarian stromal hyperthecosis without any evidence of malignancy in the ovary. The differential diagnosis of ovarian mass lesions includes benign, borderline and malignant ovarian tumours. Ovarian hyperthecosis can be mistaken for an ovarian neoplasm and requires a high index of suspicion as it may be a life threatening condition. To the best of our knowledge, only two cases of primary ovarian hyperthecosis were reported in a 'local' hospital. In this article, we present a patient with primary ovarian hyperthecosis who presented to our hospital as an emergency and review the

current literature on the diagnosis and management of the condition. Hinterhalt 3 is a fast, fun and action packed toy soldiers game for browser. Hinterhalt 3 is not only a fast-paced shooter where you can carry on a whole battlefield, but also a special arena where you can show of your skills on a completely automatic and ambient environment. You can play with your friends and enemies in the 2 player coop or with a single player game for unlimited goals. Featured Game modes: Skirmish: Eliminate all opponents and protect your team mates. The first team reaching a specific number of eliminations wins the match, the other one will go home as the big loser. Ambush: A capture the flag based game mode with slight variations where the attacking team must capture all the flags within a given life-budget. The defending team on the other hand has an infinite number of spawn, however, must defend the flags by all cost. Luckily, it disposes of heavy weapons such as mortars, artillery and static machine guns and decimate and blow away the enemy. Zombies: Rules are simple. You spawn, they spawn, you run out of ammo, you need to find ammo, eventually you lose....or...who knows! Obviously, Zombies get stronger throughout the game, making it more and more unlikely to survive and an ever-increasing challenge. Commander: In this auto battle based mini-game you define the actual spawn areas of your soldiers and strategically position heavy weapons. Maps are randomly generated and thus require new strategies and positioning per match and the first team to reach a specific number of kills wins. Art Style: Carefully designed art style, a mix between low poly and cartoon, and selectively chosen sounds, outlandish animations, GUI and visual effects provide a great addition to the whole game experience.
