What's new:

z have improvised a lot of songs that I like (Those Days, Le Crazy Train, Oi Oi, Wasabi, Wallflower, C'est La Folie) but this one that they made for the season has a scene that is just brilliant, you can feel the story that is there. Another great idea from N.D.G. and can you say that this production has a lot of excellent ideas, the cast shows it, and at every stop, the show they improvise just flows so much a little bit crazy some times...[/i] Totally. I've always thought of N.D.G. as a sort of Jay-Z/Pharrell, like, kinda guy, with terrific ideas and a love of a good beat. So for someone to pull it together like he does, really speaks volumes. This one is one that I can't sit on my hands and wait for it. [quote author=__kaleveren__ date=1106141620]Totally. [quote author=WYTPNGJ20B date=1106141648] [quote author=tobers77 date=1106141531] The only thing I thought in the whole mashup, was that there was a scene in the film that they forgot to include in the mashup and that was the final trip to the hospital. Anybody seen that scene from "Kaleiden"? Or heck, seen the song at all?[/quote] Actually, they go over this entire sequence with Poi & Tsukamoto. Probably because they couldn't cram it in in one night for the performance.
