This is an Indie Japanese game from a team of 5 people - and as such, some things may not be finished correctly. Hopefully the fun will outweigh the rough edges! As always, if you have any questions or comments, please let us know! We're very excited to see where this game goes! About This Content Listen to the TINY METAL Original Sound Track [HERE!](#) Revel in the moody rhythms and melodies composed by the amazing Tomoki Miyoshi - who has created music for many other award-winning and fan-favourite games such as I am Setsuna and Lost Sphear. Please let me know if there is something I can do to help you by posting on the Steam Forum or contacting me directly at [email protected]. Such an amazing soundtrack. I loved the original game and never heard it before so it was a real treat for me. I know it's more than likely a beta version, but if the streaming is any sort of indication, is there any way you can add that? In-game music? Or maybe just the sound effects? As the name suggests, I'd love to hear it in the game too! The game looks great and I cant wait to dive in! Developer: Inakashira Publisher: Booya Platform: PC, Nintendo Switch Genre: c9d1549cdd**

What are the best logistics management and business simulator games? ## **What's new in An Alien With A Magnet:**

**Wars Fund Drive! Well, they're over, and I thought you guys might want to know. I beg your leave to direct your attention now to the Blood Dawn Patreon page, where I've been steadily posting updates on our progress as our campaign was coming to the end. Obviously this was a little more intense than usual, as many of our fans' donations were of a significant size, and of course the earlier donations are still on file. These attacks always take a lot out of me, and I'm never able to climb back the way we climbed before; so it was rather draining. But I wanted to provide you with an extensive summary of why we did this, and a summary of what's next. When I don't write about it, it's just too overwhelming; and I don't want to let anyone or anything get overwhelmed. Between the updates, I'd like to explain why we didn't achieve as much as we probably should've before the end. I had hoped to. I did pretty well, and did more than I intended, but that had nothing to do with my intentions, which were what I say I'm always doing, and have been for a long time. I think it has been apparent to some of you that in recent years I've been wishing to acquire a camp and build smaller walls around myself, and other things, etc, etc. Obviously these are private**

**matters of my own, and no one can judge me for that. Always, but especially now, I've been working on The Jesus' Legacy, and am always eager to expand that. I had hoped the whole thing would be done in a year or two from now, but I'm not sure that's feasible. Our peak funding days were August 2011-early November 2011. In early November we were comfortably at \$25,000, which really isn't much when you look at all of how much time and work I've put into it, and how many angels came before we arrived, but it's relatively insignificant when compared to what we've been able to accomplish in more recent months, or even what we will have accomplished with this campaign, more or less as is. BUT, since we've also raised a few thousand more dollars, we've been able to continue to buy**
