In this, the final season of Grand Theft Auto V, you and your friends can continue to choose sides in the conflict between the military, gangs, and civilians, exploring the bustling city of Los Santos and its surrounding areas and choosing from an extensive menu of Grand Theft Auto V PC activities to suit your personal style. In addition to the usual three-star Wanted Ratings, there's also a four-star public enemy status. Grand Theft Auto V PC boasts over a dozen unique cars, including vintage and modern classics and some of the most powerful vehicles ever in a videogame, from muscle cars to sports cars and helicopters, as well as exotic sports cars. There's a huge variety of weapons, from handguns to flamethrowers and sniper rifles, a healthy armoury of enhancements, and over 250 different modifications of vehicles and other items. With so much to do in Grand Theft Auto V, it's important to get your hands on a robust control system. Without the use of a keyboard and mouse, players can make use of a gamepad, a handy alternative if you fancy travelling anywhere. Even better, there's an interface for the Xbox 360 controller, making it the ideal peripheral for the Xbox One version of Grand Theft Auto V. With GTX owner, the studio is more committed to guaranteeing the best experience possible for gamers than ever before. Its very own custom drivers provide the GeForce Experience tech, which downloads all the latest drivers, renders games and optimizes settings, including Texel Rate, TXAA, and game mode settings, enabling optimal performance. All GeForce GTX GPUs receive unlimited access to GeForce Experience and the free V-Sync and V-Sync to Off options Grand Theft Auto V enables the user to control their game without a perceived frame-rate impact. With all these features, in addition to features that deliver a true PC game experience like texture filtering, shadow mapping, and real-time screen space reflections, there's no better way to enjoy Grand Theft Auto V PC than with GeForce GTX to the max.
