A passport photo is considered a valid passport photo if: The pupil in the photo is open and visible. The front and back photos are taken at the same time. The front and back photos show a face that matches the face on the passport. There is no facial hair in the front of the photo that would obscure the face. Any changes made to the photo will require a pass photo. A photo must be taken by a Brandeis College employee to obtain a pass photo. The pass photo must be taken within 30 days of the date the photo is posted. Passport photos taken more than 30 days must be resubmitted. Please contact HR in advance to make arrangements. U.S. citizen passport photos must be taken by a passport agent who has been issued with a specific authorization by the U.S. State Department to take passport pictures at a U.S. Passport Acceptance Facility and to photograph U.S. passport holders. Faces of children (under 14) are not acceptable. Facial features are not recognizable. Noses should be at least half in the photo, with the rest of the face visible. If the child's face is not completely visible, the photo cannot be accepted. We accept cash, check, and Dutch Debit payments. Credit card payments must first be deposited to Dutch Debits. Please note that this service is for passport photos only. We do not accept passport applications. For more information regarding U.S. passports, please visit the US Department of State website. Appearance The appearance of the ID card may change from time to time but includes, at a minimum: name, relationship to the University (e.g., student, faculty/staff, affiliate), University identification number and issue date. Photo ID cards are issued to regular students, faculty/staff and affiliates. Students participating in special programs are eligible for non-photo ID cards. 5ec8ef588b
