in a year that included the release of two of the most popular american artists of the past decade, jay-z and beyonc, the tradition of the british invasion, with its cultural shifts and socio-political implications, continued, beyonc released her acclaimed beyonce, which included a brilliant if awkward cover of the us standard (and, for many, confusing) song, staying alive. an even more powerful recording of the song, however, was made by a british singer, the eccentric former leadbelly (real name huddie william leadbetter) who recorded four albums in the 1960s and 1970s, and is arguably the most original and influential singer of folk music, and certainly the most idiosyncratic. the bohemian, goth-country crooner is every country music fans favorite. with a voice so smooth, his melodies so catchy, and his style so unique, josh turner has been a top country performer for years and is currently enjoying a resurgence in popularity. on full circle, his first album in over a decade, he is back to his roots, mixing traditional country style with modern sounds and country classics with current pop hits. meanwhile, on his new single, which is being released to country radio, he reaches for the classics. the album features three official singles, including youre not the one, a song turner has played in his live sets for decades. he has previously covered alan jacksons you, and he now pays tribute to the song in the album version. he also covers another of his country favorites, travis tritts whiskey river. in fact, his cover of whiskey river is the only non-cover song on the album. it is the most straightforward, yet heartfelt song on the album, as turner sings, theres not much i can do but watch you and pray that you dont die. a version of the song was recorded with alan jackson and steve wariner. the song has been covered by other artists, including dierks bentley and ed sheeran. in fact, sheeran rewrote the song with turner in mind and the two recorded a version for his album, shape of you. the song was written by steve goodman in 1967, who died in 2014. it reached the top of the billboard hot 100 in 1967, and became the biggest-selling single of that year. gary trust, getty images
